- 📁 WMshop   **← Find file called WMshop and right click**
- 📄 Boot.BAK
- 📄 msdia80.dll

3) Right click on either Delete or Rename.
   a. If you select Delete all the demo information is removed.
   b. If you select Rename you can save the demo data in the event you need to refer back to the data in the future. Rename the file Mshop.old.
